NEXUSTECH INNOVATIONS INC. - ANNUAL REPORT

Fiscal Year 2025-2026 | Enterprise Operations & Strategic Overview

1. EXECUTIVE SUMMARY & COMPANY INTRODUCTION

NexusTech Innovations Inc. is a leading pioneer in enterprise cloud intelligence, autonomous cybersecurity defense systems, and distributed data analytics. NexusTech provides mission-critical digital infrastructure for Fortune 500 corporations, healthcare networks, and financial institutions. As of FY 2025, NexusTech powers infrastructure for over 420 enterprise clients with 97.4% retention.

2. HISTORICAL TIMELINE & CORPORATE EVOLUTION

- October 2018: NexusTech Innovations was founded in Austin, Texas, by Dr. Evelyn Vance and Marcus Holloway. The company began operations in a modest incubator with a seed round of .5 million led by Horizon Capital.
- March 2020: Launched first commercial product, OmniCloud Monitor 1.0, widely adopted by healthcare providers.
- August 2021: Closed Series A funding of million. Opened secondary software development lab in London.
- November 2022: Unveiled CyberShield AI, achieving SOC 2 Type II certification and ISO/IEC 27001 compliance.
- July 2023: Completed Series B round of led by Apex Global Ventures. Acquired StreamVector Labs for .
- January 2025: Achieved GAAP profitability. Established regional operational headquarters in Singapore & Zurich.

3. CORE PRODUCTS & SERVICES

A. OmniCloud Platform (v4.2): Unified hybrid-cloud observability suite across AWS, Azure, and GCP. Leverages predictive ML to downscale idle clusters, reducing customer cloud spend by an average of 31.5%.

B. CyberShield AI (v3.0): Autonomous zero-trust cyber defense platform. Behavioral anomaly detection intercepts zero-day exploits and ransomware attacks within 45 milliseconds of initiation with automated sandbox isolation.

C. DataPulse Analytics: Distributed analytical pipeline processing over 50 million telemetry events per second.

NEXUSTECH INNOVATIONS INC. - ANNUAL REPORT (CONT.)

4. FINANCIAL PERFORMANCE & REVENUE FIGURES (FY 2025)

- Total Consolidated Revenue: .8 Million (USD), representing 28.4% year-over-year growth from FY 2024.
- OmniCloud Platform: .5 Million (48.0% of total revenue)
- CyberShield AI: .2 Million (34.5% of total revenue)
- DataPulse Analytics: .3 Million (12.8% of total revenue)
- Professional Implementation Services: .8 Million (4.7% of total revenue)
- Gross Margin: 79.2% | Net Operating Income: .6 Million (USD)
